

JSH lawyers handle all types of employment and personnel-related matters and perform employment audits for school districts. We regularly recommend employment procedures, provide counsel in student disciplinary actions, advise schools on IDEA compliance, and advise governing boards on school policies and statutory compliance.

Our clients receive not only the extensive experience of our education defense team, but also the knowledge and expertise of JSH attorneys who excel in other practice areas. Our clients' needs and goals dictate every aspect of the legal services and counsel we provide.
