

Our team has more than 200 years of collective experience representing the State, counties, municipalities, water districts, and educational institutions, including public and private K-12 schools, colleges and universities, and special education institutions throughout Arizona. We understand how important it is for governmental entities to ensure their constitutional and statutory immunities are protected, and we are committed to vigorously defending lawsuits on their behalf. We have extensive experience defending all types of governmental liability claims, including:

- Section 1983 civil rights actions
- Employment and personnel claims
- Catastrophic personal injury claims arising from road design allegations
